NATIONALITY AND LANGUAGE REPORT

In my school there are four hundred students from Spain, Argentina, China, Rumania, Bulgaria, Germany, Morocco and the USA.

At school we have French classes twice a week, English classes four times a week and Spanish classes four times a week, too. The students of 3rd ESO and 4th ESO also study Greek and Latin. People in my school speak Spanish, Chinese, Rumanian, Bulgarian, German, English and Arabic, so nationalities in my school are varied.

My level of English is beginner’s level. My listening is quite good. I want to improve my vocabulary and my speaking. I think it’s a good idea to memorize examples, grammar rules and vocabulary, and also practise English with another person.
